1500mm*1300mm

Product Parameters

Product Name	UV Flatbed Inkjet Printer
Brand	Sunthinks
Printer Model	SG1513
Printhead	Rioch GEN5
Resolution	Max 720*1800dpi
Ink System	1000ml*8 Colors
Colors	C / M / Y / K / W / LC / LM / V
Printing Size	1500*1300mm
Printing Height	Max 150mm
Printing Speed	Max 39 m²/h
Power	1500W
G.W	1080kg
Product Size	3120*2100*1500mm
Application	Advertising, Decorative Items, Consumer Electronics, Digital Accessories, Jewelry, Leather, Handicrafts, Furniture and Home Furnishings, Toys and Other Industries.
Sales Method	Factory Direct Sales, No Middlemen
Customized Service	Yes
After-Sales Service	1 Year Warranty/Local Service by Overseas Engineers/24/7 Online Service/Lifetime After Sales Service

Printer Features

1

Dual Safety Assurance

The factory is certified by SGS and ISO 9001, and its products have passed CE compliance testing. From production to delivery, it fully complies with international quality and safety standards.

2

High-Quality & Fast Printing

Equipped with a 7-color (C/M/Y/K/W/LC/LM) UV ink combination plus varnish (V), it delivers vibrant colors with low granularity. It enables high-precision printing on a variety of materials and can also achieve stunning printing effects such as texture and embossing.

3

Full-Platform Vacuum Adsorption

The SG1513 UV flatbed printer is equipped with a printing platform of 1500mm * 1300mm. The entire printing area of the printer can easily adsorb media, thereby improving production efficiency, accuracy and precision; no tape or other fixing methods are needed.

4

Automatic Printing Height Detection

The printer can automatically detect and adjust the printing height, with a maximum media thickness of up to 5.91 inches (approximately 150 mm), thus providing a wider range of printing possibilities for your business.

5

Wide Application Range

It can print directly on diverse materials such as rigid substrates, plastic sheets, stone, leather, PVC, acrylic, ceramics, metals and wood. It is applied in numerous industries including consumer electronics, digital accessories, indoor and outdoor advertising, decoration, DIY promotional products and gifts.

6

Easy Operation

The printer can be easily controlled and operated using the official accompanying RIIN RIP software. Through the intuitive visual interface, even beginners can easily realize full-function control and operation of the printer.

7

Reliable and Durable Configuration

It adopts an all-steel integrated body to lay a durable foundation, and is equipped with a linear motor and a magnetic grid ruler to achieve precise driving and positioning. At the same time, it is equipped with an extended X-axis design to expand the working range, and supplemented by a printhead anti-collision system and a built-in static elimination device to ensure operational safety, comprehensively enhancing the durability and operational reliability of the equipment.

Main Printing Parameters

Max printing width of 1500mm

Max printing speed of 39 m²/h

Max printing length of 1300mm

Max printing height of 150mm

Max printing resolution up to 720*1800dpi

UV ink
